Bio Basic Inc. is a life science research-support company founded in Toronto, Canada - Headquartered in Markham, Ontario.

We are dedicated to providing the highest quality products and services at the most affordable rates in the industry. We believe that high quality research products and services should be affordable and easily accessible to every lab. Our mission is to offset the effects of limited research funding through Bio Basic's affordable yet high quality products and services, thereby allowing quality research to flourish.

As a direct manufacturer, we have the ability to offer unbeatable prices on all our own product lines. Through our core manufacturing facilities, we offer a variety of Products and Services — all suitable for basic research and with a large capacity for custom production.

BIO BASIC
Quality-Affordable Research

Gene Synthesis

from \$0.21/bp

- Genes cloned & sequence verified.
- Synthesis begins at **\$0.23/bp**, or **\$0.21/bp** for 15 genes or more.
- **Free cloning** in standard vector.
- Custom cloning **from \$49/vector**.
- Free codon optimization.
- 2-4ug of gene in vector.
- Up to 10ug free upon request.
- Contact us at gene@biobasic.com.

Oligo Synthesis

from \$0.16/base

- Lowest prices in the industry for high-purity and modified oligos.
- **HAP/Desalt** oligos: from \$0.16/base.
- **PAGE oligos** from \$0.20/base (NO additional CHARGE).
- **HPLC oligos** from \$0.20/base + \$6/oligo.
- **Modifications** include: Linkers, Spacers, Quenchers, Fluorophores and more.
- Contact us at synthesis@biobasic.com.

Peptide Synthesis

from \$3.13/aa

- We synthesize small, large (>50 amino acids) and modified peptides.
- **Money back guarantee** - pay nothing if your project fails.
- **Crude** from **\$3.13/aa** (1-4mg of 1-30aa peptide).
- **High purity** (>98%) from **\$16.32/aa** (1-4mg of 1-30aa peptide).
- Contact us at peptide@biobasic.com.

Protein Production

from \$775 (1mg)

- Full-service protein purification, from gene synthesis to final purified protein.
- High flexibility and affordable service.
- 4 Expression Systems:
E. coli.
Baculovirus.
Mammalian.
Yeast.
- Contact us at protein@biobasic.com.

Antibody Production

from \$1170

- **Polyclonal Services:**
Standard packages from \$1170.
Guaranteed packages from \$1350.
Deliverables:
Pre-immune serum, 1mg antigen, antiserum, purified antibody + QC data.
- **Monoclonal Services:**
Pricing on a case by case basis.
- Contact us at antibody@biobasic.com.

DNA Sequencing

from \$3.00/rxn

- \$3.00/rxn for bulk samples.
- \$4.50/rxn for <100 plasmid samples.
- **Plasmid Purification:** \$1.00/rxn extra.
- **PCR Cleanup:** \$0.60/well extra.
- Results are sent electronically via email.
- **Samples accepted as:**
Plasmid DNA, Bacterial and PCR products (purified and non-purified).
- Contact us at sequencing@biobasic.com.
